

# 'ORGANICS FOR ALL' OPENING HERE FROM MONDAY 30TH APRIL

[www.organicsforall.com](http://www.organicsforall.com)

Telephone:- 0333 0444 192

We are passionate about food and where it comes from. We have a personal relationship with our growers and know the journey of every fruit and vegetable that ends up in your box. All of our produce is certified organic.

European produce is accessed via an agent which is a small family run business which operates using similar principles ie primarily dealing direct with small independent growers.

We offer either a set weekly box which arrives at your door we offer a bespoke box delivery service. This allows you to choose exactly what arrives on your doorstep every week!

We distribute the weekly box contents, full catalogue and an excel order sheet at each weekend. Please contact us on [info@organicsforall.com](mailto:info@organicsforall.com) to receive this information and please let us know that you are a current customer of Longwood Farm as we will establish a new round to cater for you.. This is quite timely as you have a new organic grower setting up in Wickhambrook and Organics For All is moving onto their farm. By the Summer this grower will be offering boxes to your area too.

But for those of you who prefer to personally choose your produce, we are working with Louise and Matthew to continue operating the shop., Albeit that we know there has to be a short period between the shop closing and re-opening.

We stress that our passion for good quality organic food from small independent growers is as great as Louise's and Matthew's.

Look forward to meeting you in April.

Gill
